## **Cable One Selects Time Warner Telecom as Primary Backbone Provider for Internet Services in Idaho**

*—Time Warner Telecom wins \$2.5 million, multi-year contract for 10Gbps IP connectivity*

**BOISE, Idaho** - April 21, 2008 -Time Warner Telecom, Inc. (NASDAQ: TWTC) a leading provider of managed voice and data networking solutions for businesses, today announced it was awarded a \$2.5 million, multi-year contract to serve as the primary backbone Internet network provider by Cable One for its Boise system. Time Warner Telecom was selected as the preferred provider to support Cable One's Internet service after demonstrating its tremendous network reach, advanced technology, highly reliable network and superior customer support.

"We rely on Time Warner Telecom to assist us in providing our customers with fast and reliable Internet service," said Steve Fox, Cable One's Vice President of Digital Services & Technology. "It is vital for Cable One to employ scalable and cost-efficient network technology that consistently delivers the quality we demand. We are pleased, as the leading cable provider in Idaho, that we can consistently meet the needs of our customers."

Time Warner Telecom will provide Cable One in Boise with a 10 Gbps Ethernet network infrastructure to support the cable company's high-speed Internet offering. Time Warner Telecom's network allows Cable One to provide the fastest high-speed Internet of any Internet service provider in the state. Further, Time Warner Telecom has constructed dual-entrance facilities for Cable One increasing reliability and supporting the company's business continuity and disaster recovery initiatives.

Time Warner Telecom also provides service to Cable One in Arizona and Texas. Cable One has found that Time Warner Telecom's end-to-end, fully redundant, fiber optic network, makes the company a good fit to support its services. "Time Warner Telecom plays an important role as we expand and enhance the services we offer our Idaho customers," added Fox. "The company has provided us with excellent service in the past and we look forward to continuing this relationship."

"Our superior network capabilities and reach, teamed with our unparalleled customer support, offers companies such as Cable One the reliability and flexibility to expand their businesses," said Tab Roper, general manager of Time Warner Telecom in Idaho.
